

Stakeholder Register

Project: StudentSarathi – Student Income and Part-Time Employment Platform

Methodology: PRINCE2

Version: 1.0

Date: July 2026

Author: Ravi Raj

1. PURPOSE

The Stakeholder Register identifies all individuals, groups, and organizations that have an interest in or influence over the StudentSarathi project. It helps ensure proper communication, engagement, and expectation management throughout the project lifecycle.

2. PROJECT CONTEXT

StudentSarathi is a digital MVP platform designed to connect:

- Students seeking part-time income opportunities
- Employers offering flexible job roles

Stakeholders include users, decision-makers, and supporting roles involved in development, validation, and success of the platform.

3. STAKEHOLDER REGISTER

Stakeholder	Role in Project	Interest Level	Influence Level	Expectations	Engagement Strategy
Students (End Users)	Primary users seeking jobs	High	Medium	Easy job access, fast application process, simple UI	Surveys, feedback forms, usability testing
Employers	Job providers	High	High	Quick hiring process, quality candidate pool	Regular updates, feedback sessions
Project Manager	Overall project control and delivery	High	High	Successful MVP delivery, controlled scope	Daily monitoring, decision authority
Platform Owner (Business Sponsor)	Funds and approves project	High	High	Business value, user adoption	Weekly reports, milestone reviews
Developers (if applicable)	Build platform features	High	Medium	Clear requirements, stable scope	Task tracking tools, sprint updates
UX/UI Designer	Design user interface	Medium	Medium	Clear user requirements	Design reviews, feedback loops
Universities / Colleges	Student access channel	Medium	Medium	Student engagement opportunities	Communication campaigns, partnerships

Technical Support Team	Maintain system stability	Medium	Low	Stable system and documentation	Issue tracking system
Market Competitors (Indeed, Fiverr-like platforms)	Indirect influence	Medium	Low	Market competition pressure	Benchmarking analysis

4. STAKEHOLDER ANALYSIS SUMMARY

High Power – High Interest (Manage Closely)

- Project Sponsor
- Project Manager
- Employers

High Interest – Medium Power (Keep Informed)

- Students
- UX/UI Designers
- Developers

Medium Interest – Low Power (Keep Satisfied)

- Universities
- Support teams

External Influence (Monitor)

- Competitor platforms

5. COMMUNICATION NEEDS (HIGH LEVEL)

- Students: Simple updates, surveys, product usability feedback
- Employers: Platform capability updates, hiring improvements
- Sponsor: Weekly progress reports and milestone tracking
- Team: Task-based updates and progress tracking

6. KEY RISKS RELATED TO STAKEHOLDERS

- Low student adoption if platform is not user-friendly
- Employer dissatisfaction if candidate quality is low
- Misalignment between sponsor expectations and MVP scope
- Lack of engagement from universities affecting user base growth

7. SUMMARY

The Stakeholder Register for StudentSarthi ensures structured identification, classification, and engagement of all key participants. It supports effective communication, expectation management, and successful delivery of the MVP platform.
